About me

Hi there! ☺

I'm a 32 years old guy from Uruguay who always loved web design and programming. I started my career as a web developer in 2012 and since then I've been working in various companies with different technologies like HTML, CSS, JavaScript, TypeScript, PHP, WordPress, React, NextJS, NodeJS, and others. I'm a self-taught person who loves to learn new things and I'm always looking for new challenges. Nothing makes me happier than help people to achieve their goals, and be as professional as possible.

Experience

2018 - 2023

Senior WordPress Developer
at OnPoint Global

OnPoint Global is a high growth data driven internet company that retains a large editorial and publishing staff to develop original content across its portfolio of vertical and geo focused brands.

My work there was work along a big team of developers and designers to create and maintain WordPress websites for the company and its clients. In the last time I was working with React and NextJS to create new websites and improve the UX of the existing ones.

2014 - 2018

WordPress Developer
at Tenfield.com

Tenfield is a broadcasting corporation which holds the commercial rights to broadcast the Uruguayan football and basketball.

My work there was create and maintain WordPress websites for the company, creating custom rank tables for the football and basketball leagues, and creating custom plugins to manage the content of the websites.

2013 - 2014

Web developer
at Wintrillions.com

Established in 2005, WinTrillions is an amazing online lottery provider offering lotteries, syndicates, millionaire raffles and scratch cards. It provides players with the opportunity to participate in draws of the most popular lotteries around the world.

In Wintrillions the main tasks I had were: Design and Layout newsletters and their Casino website

2012 - 2013

Web Developer
at Meeting

Meeting is a creative digital agency based in Montevideo, which provides services in the areas of web design, web development, mobile applications, and digital marketing.

In Meeting I was working as a web developer, creating websites for the company and its clients using just HTML, CSS, JS, PHP and WordPress.

Hobbies

Learning and playing with new technologies is one of my favorite hobbies, but not only coding my life is about programming: I love to play soccer and pass a good time with my friends, watch movies and series, and spend time with my family (my dogs are part of my family too 🐶), go for a walk to the park with them is something I really enjoy. Spend time in the nature, drink Mate and having a good time is all I need to be happy.
